

BASEBALL HALL OF FAME AUTOGRAPH GUIDE

Includes pricing for signed items that were not certified via an authentication system, including a sticker or hologram on the item, at the time of signing. The following values are estimates based on extensive research using prices realized in major auctions and retail sales in storefronts. All values are for signed items in the 6-7 range of autograph quality (10 being perfect) with unquestioned authenticity. A perfectly clean example of either autograph, item signed or both will raise the values dramatically. All signed baseball prices are for non-shellacked and non-personalized official balls. This is only a guide and many items have sold at many multiples of these values. N/A means not available or so rare it's impossible to price.
